Essential Oil Info

NOW® Essential Oils are genuine reflections of the botanicals from which they're derived. When properly diffused, these botanical extracts can encourage wellness, tranquility and even inspiration. Our essential oils are highly concentrated and identity verified to ensure quality. We use only fresh botanicals bursting with vitality and beneficial compounds. Strict attention to detail, meticulous extraction methods, and a focus on safety and purity are what set NOW® Essential Oils apart from other essential oils. We take the necessary steps to ensure our oils are brought to you in a manner that's scientifically and environmentally responsible.

Things are Just Rosey

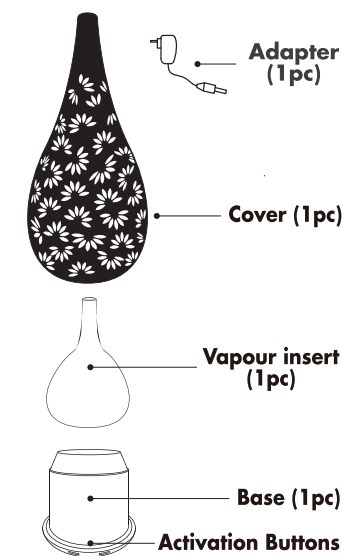

- 1 drop of NOW® Geranium Oil
- 10 drops of NOW® Rose Absolute Oil

Congratulations on your purchase of NOW® Solutions Ceramic Stone Diffuser designed for indoor use only. Please read the instructions carefully before using.

How it works

NOW® Solutions Ceramic Stone Diffuser is made of natural clay and uses high frequency ultrasonic electronic technology that vibrates water inside the unit into an ultra-fine mist, which helps to maintain essential oil integrity and holistic properties. When your favourite essential oils are added, they are immediately dispersed into the air, providing immediate healthful benefits while helping to ionize the air. With an automatic shut-off and up to 7 hours continuous run time of whisper-quiet operation, this attractive diffuser with rotating colors (see image below) complements your healthy lifestyle and is ideal a bedroom, living room, office area or anywhere you want to create a relaxing, healthful environment.

What's included

How to use

- Check inside all pieces for all parts, remove the glass vase cover and vapour insert. Plug the cable into the unit FIRST, then connect to a wall outlet. **Do not move once unit has been filled with water.**
 - Using a cup, fill with regular tap water up to the max fill line. Then add 5 to 10 drops of your essential oil.
 - Replace vapour insert, check for alignment. Then, place glass vase cover over the base.
 - Press the power icon to begin.
- DO NOT FILL ABOVE MAX FILL LINE. DO NOT FILL BASE UNDER RUNNING WATER.**

How to operate

- | | |
|---------------------------|-------------------------|
| Press Light | Press Power |
| 1 Turn on warm light | 1 Continuous operation |
| 2 Colour rotating lights | 2 Alternating operation |
| 3 Select displayed colour | 3 Turn diffusing OFF |
| 4 Turn lights OFF | |

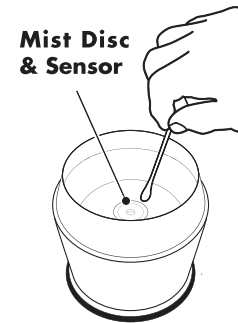

NOTE: Oil mist can damage wooden and painted surfaces; wipe up any residue quickly and often.

How to clean

We recommend that you clean your NOW® Solutions Ceramic Stone Diffuser every time you change oils. Oils are corrosive, and over time, they build up on the ceramic parts. To ensure a long life for your diffuser, follow these simple cleaning and maintenance instructions:

- Rinse with warm water and wipe clean as follows:
 - Wipe with soft damp cloth to clean.
 - Wipe with cotton swab and rubbing alcohol when needed to break up excessive oil residue
 - Use a cotton swab and water or rubbing alcohol to clean the ceramic disc inside the base. ***See diagram on the right.**
- We recommend cleaning the unit every time you change oils or every 2 uses.
- Do not use detergents or abrasive agents to clean the diffuser unit.

Using a cotton swab with warm water, gently clean the mist disc and sensor located at the inside bottom of the base.

If defective in any way, do not return this diffuser to the retailer. Please contact the manufacturer's customer service for assistance.

Please read the instructions carefully before using. Manufacturer accepts no liability for damage caused by incorrect use of the NOW® Solutions Ultrasonic Ceramic Stone Oil Diffuser.

	1. Shut off and unplug the power before cleaning
	2. Clean the unit by rinsing the water tank and wiping it dry with a clean cloth
	3. Do not use detergents or abrasive agents to clean the diffuser unit
	4. Clean unit when changing to a different oil
	5. Use the original adapter provided by the manufacturer
	6. If you don't use the device for a long time, unplug and pour water out
	7. Never use steamed water or very cold water
	8. Never touch water level sensor to avoid product hitting other objects
	9. Never put your hand above the ceramic disc when product is working, as this could cause pain and damage to the machine
	10. Never wrap the adapter with a cloth or paper, etc. Otherwise, it cannot dissipate heat normally and may cause deformation and burn the membrane from a short circuit. Never touch the adapter with wet hands
	11. Do not use other liquids except for water & drops of essential oil
	12. Do not aim the device at walls, ceilings, furniture surfaces as excess moisture could cause water damage
	13. Do not take this unit apart exposing electrical parts
	14. Never place on loose fabric that can block air flow and prevent the unit from misting and ventilating properly
